

PHIFER **BETTERVUE**®

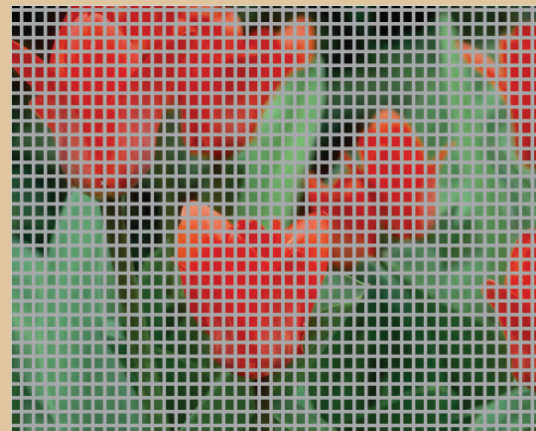

See the view, not the screen

Phifer BetterVue Insect Screening

BetterVue

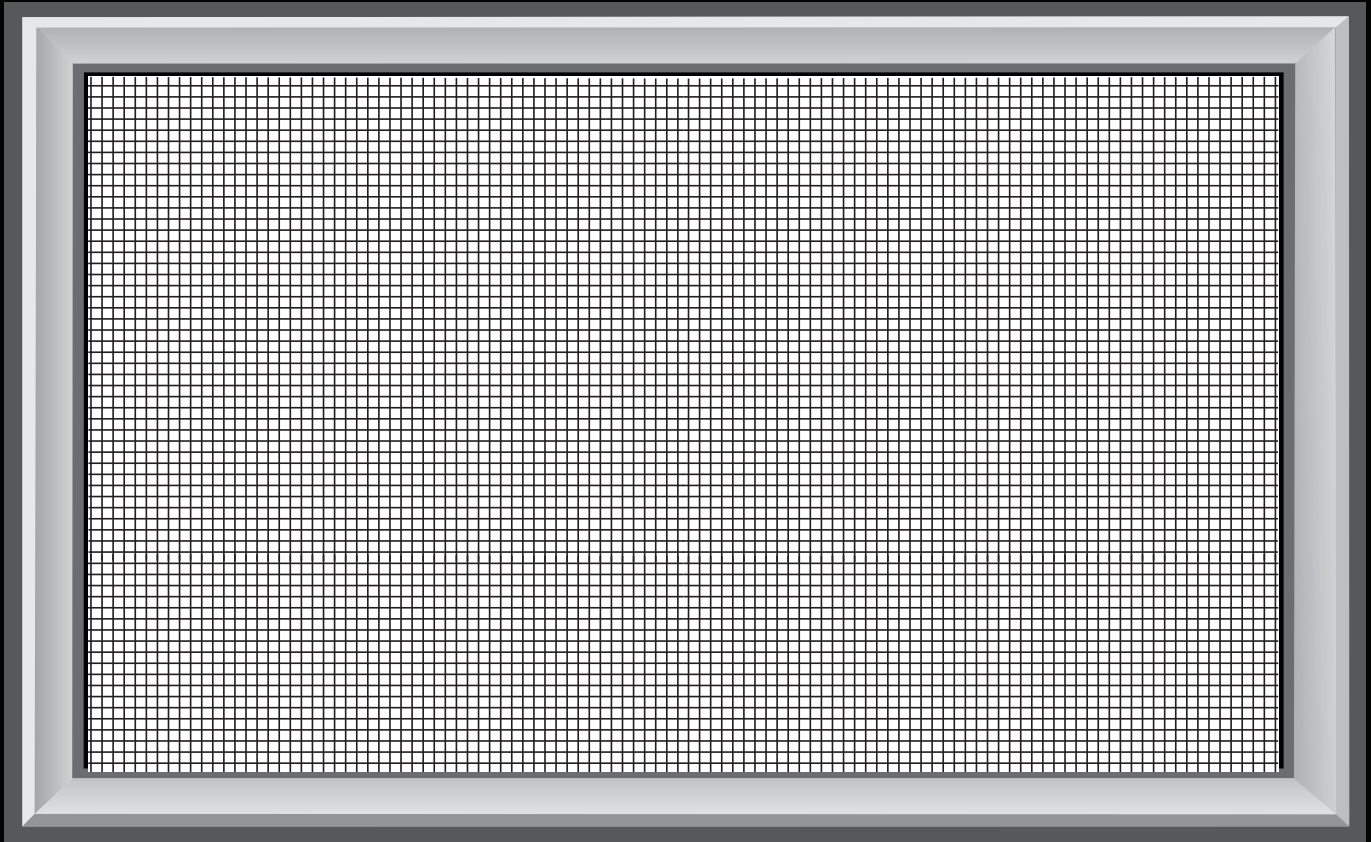

Standard Insect Screening

BetterVue vs. Standard Fiberglass Insect Screening

- Enhanced view
- More light transmittance
- Improved airflow
- Increased insect protection

PHIFER **BETTERVUE**®

IMPROVED VISIBILITY INSECT SCREEN

See the view...not the screen!

BetterVue® is Phifer's first fiberglass improved visibility insect screen (iVis) for windows, doors and porches. This screening product does for windows and doors what high-definition technology has done for television viewing: it maximizes the view by making it sharper and more brilliant.

PRODUCT CERTIFIED FOR
LOW CHEMICAL EMISSIONS
UL COM/IGG
UL 2818

BetterVue is certified to GREENGUARD and GREENGUARD Gold standards for low chemical emissions into indoor air during product usage. All GREENGUARD certified products must pass a series of rigorous emissions tests as well as annual re-certification to ensure their low emission status is maintained.

- Durable
- Flame retardant
- Easy fabrication—the same as standard fiberglass screen
- Excellent product for coastal regions
- Better curb appeal than conventional screen

Feature	Benefit
Greater openness	Better airflow, more natural light, fresh breezes, and optical clarity.
Smaller holes	Increased insect protection.
